

MARCH 2019

Greenbarnes Aluminium Poster Cases

Our aluminium poster cases are ideal for displaying time tables, menus, service times and posters. Ideal for external use but equally useful for indoor applications, these cases have a 45mm frame with weatherseal, 2mm polycarbonate glazing and a hinged, lockable door with windstay.

Can't find what you're looking for?

Also available, but not illustrated here, are cases with a 55mm frame profile, post-mounted and illuminated versions. If you can't see exactly what you need illustrated here, please call us to discuss your requirements.

VERSION 6 | FEBRUARY 2019

Greenbarnes MmT Smallboards

Designed to fulfil the widespread need for small-scale, simple notice boards our unique Man-made Timber Smalboards are ideal for displaying timetables, menus, byelaws, service times and general notices and have the added bonus of requiring virtually no maintenance unlike their timber counterparts. They are for a wide range of users including councils, churches, restaurants, sports clubs and residents associations. Frames are manufactured from recycled plastic Man-made Timber which has the appearance of wood but will not rot, split or warp. Available in sizes from A4 up to A2, Smallboards can be supplied glazed or unglazed for mounting on posts, walls or railings and come as standard with self-healing rubber pinboard. Glazed boards have an integral rubber weatherseal, 2 locks per door and stainless steel hinges.

VERSION 5 | FEBRUARY 2019

Greenbarnes Oak Smallboards

Designed to fulfill the widespread need for small-scale, simple notice boards, our Oak Smallboards are ideal for displaying timetables, menus, byelaws, service times and general notices in instances where a bigger board is not required. They are suitable for a wide range of users including councils, churches, restaurants, sports clubs and residents associations. Boards are constructed in solid oak and have easily pinnable self-healing rubber pinboard. Glazed boards have an integral weatherseal and 4mm toughened glass as standard. Doors are fitted with stainless steel hinges and locked by two allen key-operated recessed fasteners. Available in sizes from A4 up to A2. Smallboards can be supplied glazed or unglazed for mounting on posts, walls or railings. Standard finishes are light or dark oak microporous woodstain.

Snap Frames

VERSION 1 | MAY 2019

Our aluminium snap frames are an extremely popular method of displaying advertisements, posters and other information which needs to be changed periodically. They also offer the most economical method of poster display, suitable for both indoor and outdoor locations.

Tamper Proof Frames

Our tamper-proof aluminium snap frames offer an enhanced level of security for your posters and hence are ideal for locations where tampering is likely to be a problem and also for exposed external locations. They are virtually impossible to open by hand but easily opened with the hand-held opening tool (available separately). With the exception of Standard Colour frames, which are made to order (usually within 5 working days), all the snap frames shown here are generally available ex-stock.

Various Colours and Sizes

Standard snap frames are simple, effective and available in silver, black, white, a choice of 6 powder-coated colours, plus satin chrome, stainless, gold anodised and wood grain finishes. Unlike some rival products our snap frames are supplied with an anti-glare poster cover sheet which is UV-stable to ensure a long, optically clear life. Most are available in 8 popular poster sizes, **A4, A3, A2, A1, A0, 30" x 20", 40" x 30"** and **60" x 40"**. The smaller variants have a 25mm wide frame profile whilst the 3 largest sizes (**A0, 40" x 30"** and **60" x 40"**) use a wider 38 or 42mm frame to better clamp larger posters.
